ENSURING SAFETY AT IDS: Access Free Rapid Antigen Tests

As we continue to navigate the ongoing presence of COVID-19 in our community, IDS is committed to helping maintain client safety and well-being. We have procured free Rapid Antigen Tests (RATs) from the state government to offer our community an added layer of security.

If you'd like to receive a free packet of 5 RATs, please visit our office in Carlton. To ensure fair distribution, we're limiting packets to one per person. We appreciate your understanding and cooperation as we work together for our community's health & safety.

CELEBRATING TOGETHER: IDS 2023 Client Christmas Party

We're absolutely delighted to share that our 2023 Client Christmas Party was an amazing success! We all had a wonderful time singing songs, dancing, taking fun photos and enjoying tasty food.

We want to say a big thank you to everyone who came and celebrated with us. Your being there made the party even more special. As we draw the year to a close, we send our heartiest season's greetings to each one of you. Here's to more shared laughter, joy, and connection in the coming year!

STAYING SAFE IN SUMMER: IDS Reminds You to Prepare and Protect

As we embrace summer, it's vital to stay prepared and safe, particularly when it comes to fire risks. Whether your home is located in a fire-prone area, you're visiting loved ones, or planning a holiday, we strongly recommend having a fire plan ready. For more information on preparing an effective fire plan, [visit this site](#).

Beyond fire safety, it's essential to protect yourself from the summer heat. Drink plenty of water, avoid exposure to the sun between 11 AM and 3 PM, and never leave children or pets unattended in hot cars. And let's not forget to look out for each other - take a moment to check in on your neighbours. We all play a part in our community's well-being, so let's stay safe together.

NDIS REVIEW: Towards Greater Equity, Transparency, and Consistency for Participants

The eagerly anticipated review of the National Disability Insurance Scheme (NDIS) was released in early December by the Independent NDIS Review Panel.

Tasked with assessing the scheme's decade-long implementation, the panel aimed to restore trust, guarantee sustainability, and enhance participants' experiences by emphasising individuals over bureaucracy and promoting greater equity, transparency, and consistency.

The review forwarded 26 recommendations, highlighting key priority areas:

1. Foundational Support: Recommends a unified, collaboratively governed support system for people with disabilities, ensuring broader access to services such as home and community care, aids and equipment, and early intervention for children with developmental delays.

Further, it recommends access to all people with disability to:

- a. Home and community care
- b. Aids and equipment
- c. Psychosocial supports
- d. Early intervention for kids with developmental delays
- e. Support for young people navigating key life transitions
- f. Support navigating all these supports

2. Participant Access, Planning and Service Navigation Support: Advocates for more flexible budgets and support for participants.

3. Service Navigation: Proposes replacing Support Coordinators, Local Area Coordinators (LAC), and Psychosocial Recovery Coaches (PRC) with a new 'Navigator' role, accessible to all NDIS participants.

NDIS REVIEW: Towards Greater Equity, Transparency, and Consistency for Participants

Key priority areas continued:

4. Inclusive Mainstream Services: Suggests improvements to educational outcomes for children with disabilities, dual funding possibilities for NDIS participants over 65, and enhanced inclusion and discrimination legislation.

5. Quality and Safeguarding: Advises the NDIS to be the overarching regulator for all government-funded disability supports.

6. Pricing and Markets: Offers several recommendations to improve market functioning.

7. Workforce: Recommends designing and trialling initiatives for workforce attraction and retention.

8. Employment: Encourages trialling various payment models and focusing on participant outcomes.

9. Support for Children: Suggests increasing available support for children in their everyday environments.

The panel proposes a five-year transition plan supported by an NDIS Review Implementation Advisory Committee. While the government will respond to the report early next year, it has indicated its continued focus on tackling fraud and provider behaviour.
